Leslie Woodriff  
Fairlyland Lily Garden  
HARBOR, OREGON

Greetings to You Lily Fans:

We, at Fairlyland, take pleasure in offering you OUR OWN OUTSTANDING LILY HYBRIDS. We have been quietly hybridizing and breeding lilies day and night for the last 15 years, and we believe we now have the most valuable stock of hybrids with the brightest future that there is available today. We seem to have awakened in the use of Rubellum as the other growers do not seem to have awakened to its very valuable characters. We feel that its shortness, earliness, pink color, and delightful fragrance combined with Auratum and Rubrum will put the hybrids in greenhouses by the millions, and many more millions in the gardens. There are over two acres of new hybrids that have never bloomed before that are well worth seeing and we invite you and all of your friends to visit us this summer. Our Fairlyland Lily Gardens are 2 1/4 miles north of California-Oregon State Line or 3 1/2 miles south of Brookings, Oregon on Coast Highway 101. For those who cannot visit us our catalog will be sent as soon as it is received from the printers. Sorry for the delay. We have 15 acres planted to Lilies, Croft, Rubrum and Hybrid seedlings.

We, at Fairlyland, were awarded the Oregon Federation of Garden Clubs Horticultural Award in 1954 for our work in the breeding of new lilies. Our new hybrids have won many ribbons in garden flower shows and Lily Society Flower Shows. Leslie's father Alan Woodriff, Leslie himself, Ruth, Leslie's wife, and our 5 children George Leslie, Jr. 16 years our tractor driver and general handy man, Ruth Marie age 14 1/2 is hybridizer for Leslie, Patsy age 11 1/2 years is also tractor driver, Betty age 8 helps in seed work, weeding, etc. We are all proud of our new lilies and invite you to see them.

Unless you state no substitutions we reserve the right to substitute equal or better varieties if sold out of any variety ordered. We have hundreds of small lots of hybrid lilies that are in too small a quantity to list. The substitutions will be made from these Special Select Groups. On orders under \$5.00 please add 20% for postage and packing. Orders over \$5.00 shipped postpaid. Cultural instructions and suggestions will be included with each order.

**SPECIAL GARDEN CLUB OFFER:** We are offering a 20% discount for group orders of \$50.00 to \$200.00 and a 25% discount for orders over \$200.00. The discount can be deducted from the order before it is sent and can either be divided among the members ordering the lilies or the Ways and Means or Finance Committee can use this saving as part of their money raising campaign for the Garden Club. Any orders you can send us help to bring these lovely lilies to you in greater quantities than has been possible in the past.

Thanks so much for your orders and HAPPY GARDENING.

Leslie and Ruth Woodriff and Family  
and Alan Woodriff

This color sheet can be spread out on your table where you can see side by side the color, size, and shape of the lilies you will want for your garden. They will give a much better comparison of varieties than the conventional catalog. We feel the beauty of our new hybrids is so far ahead of the old species and varieties that to grow them any more would be like going back to driving a Model T Ford, so we are giving you the opportunity of sharing their beauty. Be the Envy of Your Neighborhood and Be the First to Grow These Outstanding and Gorgeous New Lilies.

**SPECIOSUM ALBUM**—Cool, crisp, white flowered form of *Speciosum Rubrum*. Many of these lovely reflexed white flowers have green star centers. Excellent cut flowers and corsage flowers. Good keeping quality.

Flowering Size **\$1.50** each Seed **\$1.00** per packet

Mixed *Speciosum Album* Hybrid Seedling  
Bulbs  $\frac{1}{2}$ "- $\frac{3}{4}$ " diameter.

**5** bulbs **\$1.00**

***This COLLECTION Not Available  
Anywhere Else In The World.***

Many garden lovers have a predominance of pink in their gardens so we have prepared a special collection for you. The following selection of exciting NEW PINK LILIES will bloom for you over a 5 month period and include

- 1 LITTLE FAIRY      \$10.00
- 1 CAMEO HYBRID      7.50
- 1 ATOMIC HYBRID      10.00
- 2 PARKMANI HYBRIDS 6.00  
(*Speciosum* x *Auratum*)

\$33.50 Value for ONLY

**\$25.00** for **5** bulbs

***5 Months of Beautiful Pink Blooms For Your Garden***

**LITTLE FAIRY.** The unsurpassed beauty of *Auratum* x *Rubellum* hybrids growing for 10 years in our gardens. There are no better true pinks in the lily family than come from these crosses.

**LITTLE FAIRIES**—(*Auratum* x *Rubellum*) Strain of the finest real pink trumpet lilies in existence. 4" to 8" flowers blush pink to deep pink of *Rubellum*, on plants that are usually under 2 feet tall. They come up later than most lilies and miss the late spring frosts but they are earlier to bloom than most other lilies. They are in full bloom here by mid May, weeks before Regals, Wonderful perfume fragrance of *Rubellum*. Flowering size \$10 each, \$100.00 per dozen. Small seedling bulbs  $\frac{1}{2}$  to  $\frac{3}{4}$ " diameter \$1.00 each, \$10.00 per dozen. Seed \$1.00 per packet.

# Fragrant Cameos Match The Beauty Of Pfeiffer Hybrids

**TAWNY TIGER** (Yellow Tiger x Red Umbellatum x Dauricum Wilsonii) Mixture that carries the multiple bloom habit of Dauricum Wilsonii giving a very long bloom season over 2 months. They are fertile and some carry bulbils. Up to four ft. tall in three years from seed with 30 buds of flat out-facing flowers, orange to yellow shades heavily spotted. \$5.00 each, flowering size. Seed \$1.00 per packet.

**NEPALENSE**—This exotic Oriental Lily is a gorgeous novelty. Bell shaped nodding flowers have chartreuse petals with maroon purple center. Enchanting night fragrance. Rare. \$3.00 each.

**TWINKLE**—Pure white Speciosum type flowers with carmine blotch in center of each petal. Reflected like a Tiger Lily. High bud count with up to 75 blooms on one stem. Formosan like seed, growth like Henryi. Flowering size \$5.00 ea. Seed \$1.00 pkt.

**SUNSET LILIES—PARDALINUM GIGANTEUM**—Bright red tips shading to yellow center, slightly spotted reflexed flower. They are one of the hardiest garden lilies and will grow anywhere. They cross readily with Parryi, some with Kelloggii and a little with Bolanderi. They bloom in June. Small 6 only \$1.00, 12 for only \$1.75. Medium flowering size 6 \$1.25, 12 only \$2.25. Large flowering size 6 only \$1.50, 12 only \$2.60. Giant 3 only \$1.00, 12 only \$3.60. 100 each by express Small \$12.00, Med. \$16.00, Large \$18.00. Giant \$26.00. All smaller quantities prepaid parcel post.

**CROFT EASTER LILIES.** They are the largest flowered Easter Lily in commercial production. They are low growing in the field but can be planted in semi-shade to gain height. Excellent for border use. Many large trumpet flowers blooming in late June and July. Force these for Easter in your window garden or small home greenhouse. Small flowering size 3 bulbs only \$1.00, 12 only \$3.50 postpaid, 100 \$26.00 express. Medium flowering size 3 only \$2.25, 6 only \$4.00, 12 only \$7.50, postpaid. 100 via express \$50.00. Top flowering size \$1.25 each, 3 only \$3.50, 12 only \$12.00, postpaid. 100 via express \$80.00. Planting stock also available.

**CAMEO HYBRIDS** (Auratum x Japonicum) Our strain similar to the Pfeiffer Hybrids that created such a sensation in the Eastern Lily Shows and similar to Edgar L. Kline's strain. Larger flowers than the Little Fairies in trumpet to bowl shape, in shades of pink and white, some clear and some spotted. Spicy fragrance. About 2 feet tall. Bloom season varies with the type of Auratum used as the seed parent but most of them are July bloomers. Flowering size \$7.50 each, Small seedling bulbs 1/2 to 3/4" diameter .75 each, \$7.50 per dozen. Seed \$1.00 per packet.

**BLOOD TIGER**—A small early, vividly brilliant blood red Tiger Lily that multiplies rapidly by bulbils and bulblets also sets seed readily. Usually under 2 ft, and blooms in June. Up to 15 blooms to the stem.

\$2<sup>50</sup> each

**PINK TIGER LILY** (Regal Hybrid x Tiger Lily) One of the impossible crosses but we have it. Only hybrid out of 50,000 seedlings. Stems to 5 ft. with up to 12 flowers 6" diameter sweetly scented. Looks like a salmon pink Testaceum. Has bulbils. Stock limited.

\$2<sup>50</sup> each

Amazing **NERINES**  
BULBS THAT  
WILL BLOOM THIS FALL

**Plant in August for September and October**  
blooms for years to come. Perfectly Hardy with Lovely Deep Pink Flowers. Later and slightly smaller flowers than Naked Lady Amaryllis with Larger Clusters of Blooms. Excellent Cut Flowers.

**LARGE FLOWERING SIZE** 2 only \$1.00, 12 only \$5.00, Medium Flowering Size, 3 only \$1.00, 12 only 3.50. Small, 4 only \$1.00, 12 only \$2.50 postpaid. Per 100 bulbs via express, Large \$30.00, Medium \$25.00, Small \$15.00.

**YELLOW CALLAS** — Purple Hearted Yellow Callas—Zantedeschia Melanoleuca—Lemon Yellow with purple throat. These add an unusual color combination to the garden. We also have the golden yellow Elliottiana. Both make excellent cut flowers as well as good garden subjects. Giant size \$1.00 each. Large flowering size 2 only \$1.00, 12 only \$5.00. Medium flowering size 3 only \$1.00, 12 only \$3.50. Small 4 only \$1.00, 12 only \$2.50 postpaid. By 100 shipped express Large \$30.00. Medium \$25.00. Small \$15.00.

**STAR OF BETHLEHEM**—Ornithogalum Thyrsoides or Chincherieche. Grow your own long lasting cut flowers. These huge clusters of white flowers with deep green centers last in water a month and many of our customers use them in dried bouquets in the winter time. These are a MUST in every garden. Flower stems 18" to 24" Medium flowering size 5 only \$1.00. Large size only 4 for 1.00. Large \$2.50 dozen. Medium \$2.00 dozen postpaid. Per 100 via express collect, Large \$20.00. Medium \$15.00.

# ATOMIC HYBRIDS

These 4 pictures are samples of the variations of (Speciosum x Auratum) X (Auratum x Rubellum) hybrids. They are mainly flat to bowl shaped 4" to 9" diameter blooms in white, white with pink spots, various shades of pink, to deep blood red with up to 25 blooms per plant on well established bulbs. Some have yellow bands extending part way out in the petals and some have pink to red bands. The colors, shape, size of flowers, and heights of the individual plants are determined by how much of each parent has been used to produce the plant. They are all hardy, vigorous garden lilies blooming outside for Mother's Day, more for Decoration Day, and through June and July, instead of August and September. 1/8 to 1/4 Rubellum is enough to predominate for early flowering time and contributes a good portion of the lovely pinks so desired for gardens, cut flowers, and potted plants.

These hybrids should more than double the range in which Rubrum type lilies can be grown successfully as they are later to emerge than Rubrum and will be through blooming before the serious heat of summer. Some of the hybrids selected from this group will produce the finest forcing lilies in existence with plants under 18", flowers 4" to 9" diameter in a whole range of colors from snow white to blood red and forcing in under 60 days. Specially selected seedlings from these hybrids will give flowers from May to October, the longest flowering season ever tied into a group of lily hybrids with up to 25 blooms on established plants.

Most of them carry the lovely perfume fragrance of Rubellum or blends of it intensified by the Auratum, Punctatum, and Rubrum. For those who do not care for fragrance we have selections without fragrance.

We have several hundred available this fall in the following flowering times:

## SELECTIONS from the FOUR ABOVE GROUPS at the FOLLOWING PRICES:

Late July flowering	\$ 10.00
Early July flowering	25.00
Late June flowering	50.00
Early June flowering	250.00
May flowering. These are especially valuable for garden use and for future breeding.	500.00

**SPECIOSUM RUBRUM.** We are listing these Speciosum Rubrum as in appearance they are just a fine strain of Rubrum. These are (SPECIOSUM) X (SPECIOSUM x Auratum x Rubellum) making hybrids containing 1/8 Rubellum, 1/4 Auratum, and 5/8 Speciosum (Rubrum Album or Punctatum). They should be fine for further breeding work. They have enough Rubellum and Auratum in them to make high percentages of hybrids when crossed back with either Auratum or Rubellum. The original Rubrum or Album ordinarily doesn't make more than 1 seedling out of a thousand plants that some a true hybrid, but these Speciosum hybrids with other species in combination would give a good percentage of hybrids. No one as yet knows where the ultimate for beauty, fragrance, vigor and color is going to come from in these combinations. Vigorous, hardy, disease resistant. 3-5 ft. Various shades of pink, recurved flowers. One parent of the most beautiful lilies. Excellent garden lily.

Small flowering size 3 bulbs \$1.50, 12 bulbs \$5.00 postpaid, 100 bulbs \$40 express  
Medium flowering size 2 bulbs \$2.00, 12 bulbs \$6.50 postpaid, 100 bulbs \$55 express  
Large flowering size \$1 each, 3 bulbs \$2.75, 12 bulbs \$9.00 postpaid, \$80 express  
Extra Large flowering size \$2.25 each, 3 bulbs \$6.00, 12 bulbs \$20.00 postpaid

**MANAWATU**—This is Dr. Doak's famous New Zealand Hybrid of Speciosum Magnificum x Auratum Platyphyllum which for 2 years was judged the finest lily in the New Zealand Lily Society Show and last year a seedling of it crossed on a dark Rubrum won the Sweepstakes. It is lighter in color than Jillian Wallace but has better texture, wider petals and much better foliage. Blooms are around 7 inches colored similar to Rubrum but flatter and not nearly so reflexed. Excellent seed parent. Flowering size \$10.00 each. Stock very limited.

**JILLIAN WALLACE**—The world famous Australian Speciosum x Auratum Hybrid. The large 10 inch flowers are brilliant crimson with slight white ruffled margin. Flat flowers with slightly reflexed tips of petals. Its beauty is beyond imagination but once you see it you'll never be satisfied until it's growing in your own garden. Flowering size \$5.00. Stock very limited. Excellent seed parent.

## Yellow Lily Selection

- 1 bulb Yellow Trumpet
- 1 bulb Yellow Selection from White Henry Hybrids
- 1 bulb Yellow Selection from Apricot Gold

- Croft Easter Lily
- Regal Hybrid
- Henry Hybrid
- Sunset Lily

9 Large flowering size bulbs \$6.95  
1 each—8.35 value only

3 each variety \$20.95  
value \$23.00 27 bulbs only

(SPECIOSUM x AURATUM X (AURATUM x RUBELLUM)). These are exceptionally fine Rubrum type lilies with flowers larger and flatter than the Rubrum. Some have Rubrum coloring, while others are deep pink, and a few outstanding ones are red. The interesting spotting on these flowers gives them added character. The plants are from one to four ft. tall with 3" to 9" blooms. Most of these hybrids have Auratum Praecox as the Auratum parent and some will flower a little earlier than the other groups. These hybrids contain more variety for season, color, height and fragrance and shape than any crosses ever made, and they are fertile and will set seed right in the field.

Seedling Bulbs 1/2"-3/4" diameter  
\$1.00 each \$10.00 per dozen

(BELTSVILLE) X (AURATUM x RUBELLUM) The Beltsville Hybrid is a 3/4 Speciosum x 1/4 Auratum cross distributed by the United States Department of Agriculture Plant Industry Station, Beltsville, Maryland. It was crossed with our Little Fairy Strain (Auratum x Rubellum), and the resulting hybrids are 3/8 Speciosum, 3/8 Auratum and 1/4 Rubellum. Flat to bowl shaped flowers. This is a perfect blend of three most beautiful lilies in the world and the resulting hybrids are very vigorous and have given many lilies more beautiful than any we have ever seen before. Here, again the flowering time is tremendously important with some in bloom outside here for Mother's Day, Memorial Day and mainly through the early part of June. Again 1/4 Rubellum is enough to predominate flowering time and contribute a good portion of the lovely pinks so desired for gardens, cut flowers, and potted plants. Our best plant for bud count of this cross to date at four years from seed is carrying 25 blooms in full bloom June 5th. Regals with us bloom in early July. The plant is under 3 ft. tall with 5" flowers of pastel pink with red spots. Most of the strain will carry up to 25 flowers many with the coloring of Rubrum, some clear pink, some deep red, some with yellow bands and some with red bands. 4 to 8 inch flowers flat to bowl shaped. Some have a delightful fragrance and some have no fragrance at all.

## A Rainbow of Reds and Pinks With 5" to 10" Flowers

**PARKMANI HYBRIDS**—(Speciosum x Auratum). Hybrids of Speciosum x Auratum giving the vigor and garden dependability of Rubrum with flowering size of Auratum. They are usually intermediate in shape between the huge bowls of Auratum and the reflex of Speciosum Rubrum. The flowers are 5 to 10 inches across and range in color from snow white, white with pink dots, and various pink markings to deep blood red. Many have a pink or red ray or band giving the appearance of Red Banded Auratums but with the Speciosum Rubrum giving them a greater longevity in the garden. These are the showiest lilies in existence for late blooms, July, August and September with 3 to 6 ft. stems, with up to 35 flowers. Some are earlier to bloom than Jillian Wallace and some are later. These along with the Little Fairy strain should be used by the millions as companion plants to azaleas, rhododendrons, and camellias in foundation plantings to brighten up our summer gardens during the tourist season. Azaleas, camellias and rhododendrons are beautiful in the winter months but during the tourist season in June, July, and August there are no blooms. With heads of 5 to 25 flowers up to a foot across topping this foliage along our highways the breath taking beauty would attract tourists by the thousands.

These colored pictures are just a sample of the huge variety we are getting from Parkmani Hybrids (Speciosum x Auratum) crosses. These are in mixed colors mainly, but on special order we will tag bulbs similar in type and color to these pictured. If you want these special tagged varieties please state your preference as to color and type and we will tag them in the field as they bloom and ship the dormant bulbs to you this fall at \$5.00 each.

Seedling Bulbs 1/2"-3/4" diameter.

3 bulbs \$1.00

\$3.00 per dozen

SEED \$1.00 per packet

## PARKMANI HYBRID COLLECTION

Mixed Colors Only

1 bulb \$3.00 postpaid

Flat pink to light red

Bowl shaped red suffused

Red Banded Pink Bowl Shape. Rare, lovely type. Stock very limited.

Red Bowl Shape

Red Bowl with deeper red ray

Pink Bowl with red band

White Bowl with Red Center Band

## New Strain of Lilies to Include The Beautiful, Hardy Henry

We are working on a new strain of lilies which include Henry. Henry is grown in Florida and within about 100 miles of as far north as the soil is cultivated in Canada. It will grow anywhere under most any conditions.

**HENRY**—is called the Golden Speciosum. The reflexed flowers are orange gold with maroon pencilling and there are many flowers to a stem. Our bulbs are seedling stock produced by crossing many varieties of pollen on Henry but these flowers show mainly Henry characteristics. A few have a delightful fragrance. They have a hybrid vigor that makes them outstanding plants. They are usually listed in the top 10 best lilies. Small flowering size 4 for \$1.00, 12 for \$2.50 postpaid, \$15. 100 express. Large 3 only \$1.80, 12 only \$6.00 postpaid, \$35.00 100 express. Medium 3 \$1.25, 12 \$4.00, postpaid, 100 \$25.00 express. Jumbo bulbs, 3 only \$3.00, 12 only \$10.00 postpaid, \$65.00 per 100 express.

**REGAL HYBRIDS** (similar to Centifolium) which was used with Henry to make most of the hybrids on this page—These are Regal and Centifolium Hybrids that have been crossed and backcrossed with colored varieties of lilies and most of them did not show any color variation. These include Regal x Sargentiae x Centifolium crosses with Speciosum, Auratum, Rubellum, Rubrum, Nepalese, Ochraceum, Umbellatum, Japonicum and others but they show only sturdy Regal types in growth and in flowers. They have cream, white, green, russet, and brownish markings on the outside of the trumpets. Most regals have white faces with yellow centers but a few of them are showing tints of pink and yellow. Each is a fine variety. Extremely hardy lilies. Regals are the most widely grown of all trumpet lilies in the garden. See prices above—Same as Henry prices.

**WHITE HENRY**—(Henry x Centifolium). The 6 1/2" pure white flowers with slightly speckled, vivid orange centers are sweetly scented, and there are up to 20 flat flowers with tips slightly reflexed on 4 to 5 ft. stems. These flowers possess unusually fine texture and substance and make excellent corsages and cut flowers. It is our seedling of Henry crossed with Centifolium and it has placed second as an Auratum for three years in the North American Lily Society Show. It is an excellent seed parent being the mother of the best yellow trumpets we have ever seen. Flowering size \$5.00 each.

**WHITE HENRY HYBRIDS**—Seedlings of WHITE HENRY with Auratum and Havenmeyer giving the range of bicolors that make such lovely corsages and cut flowers. Equally flat to slightly reflexed flowers of pure white with gold or orange centers 4"-8". We have had up to 115 blooms on one stem on an established bulb, over a two month period of bloom with over 40 blooms to the pedicel with over 20 pedicels. They will grow four to eight feet in the garden. These have a resistance to summer bleaching. The flowers are larger than Henry and may have a very lovely perfume. Winter hardy. Flowering size \$1.50 each, Extra large \$2.50 each. Seedling bulbs .50 each, Seed \$1.00 per packet. Flowering size 3 only \$4.00, 12 only \$15.00, Extra Large 3 only \$7.00, 12 only \$25.00.

## 25 to 100 Lovely Blooms

**APRICOT GOLD** Strain of yellow, apricot and orange flat to slightly reflexed Henry x Centifolium hybrids more than twice the size of Henry, lovely fragrance in many of the flowers, 25 to 100 blooms on established plants, 4 to 8 ft. tall. Fine corsage or cut flowers. July and August blooming. Winter hardy. Flowering size \$1.00 each, 3 only \$2.75, 12 only \$10.00 postpaid, Extra Large Flowering size \$2.50 each, 3 only \$5.50, 12 only \$20.00, Seedling bulbs 35c ea. Seed \$1 packet.

## Up to 30 Flowers

**YELLOW TRUMPETS**—We have some of the finest yellow trumpets ever grown. We have done a tremendous job of hybridizing in the group and they will give some of the finest, most dependable garden lilies imaginable. Many have just enough Henry blood to give that extra margin of dependability. Up to 30 flowers 3 ft. to 6 ft. stems with lemon yellow to deep gold trumpets. Flowering size \$1.50 each, 3 only \$4.00, 12 only \$15.00, Extra Large Flowering size \$2.50 each, 3 only \$7.00, 12 only \$25.00. Seedling bulbs 1/2 to 3/4" .50c each, Seed \$1 per packet.

## Garden Lilies

**PINK TRUMPET**—White ground in the trumpets with varying amounts of pink to purple, many of them being a solid light purple shade. Strain comes easily from seed and particularly 100% true. Sturdy garden lilies with stems up to 6 ft. Flowering size \$1.50 each, 3 only \$4.00, 12 only \$15.00, Extra Large Flowering size each \$2.50, 3 only \$7.00, 12 only \$25.00. Seedling bulbs 1/2 to 3/4" .50c each, Seed \$1.00 per packet.

BLACK BEAUTY—(Henryi x Speciosum Rubrum). It was a blue ribbon winner at the North American Lily Society Show in 1957. It was judged the darkest red Speciosum type lily ever exhibited, and it is the most vigorous Rubrum type lily we have ever grown. It carries from 1 to 4 blossoms from stem bulblets and we have had up to 35 blooms per plant on well established bulbs. It adds the vigor of Henryi to the Rubrum group and is a SUPER Fairyland Hybrid.

Flowering \$25<sup>00</sup>  
size each

PATSY WOODRUFF with her  
BLACK BEAUTY.
